MEMORANDUM FOR THE RECORD

SUBJECT: Seminar on Student Unrest

1. On Tuesday, 23 July, Mr. [REDACTED] and I attended a two-hour Seminar on Student Unrest conducted by Captain Earl O. Bolton, USNR. Captain Bolton is Vice President for Administration of the California University system with responsibility for nine campuses. A former professor of law turned administrator, he has had to deal with student unrest in all its manifestations and has made a serious study of the problem.

3. Captain Bolton led off with an analysis of contemporary student dissent which touched on its origins, objectives, organization, tactics, and style. He emphasized the changing nature of student unrest since 1964, from an early spontaneous concern with local issues, largely non-violent and characterized by a willingness to discuss and debate with the authorities; to the present planned, belligerent, disruptive pattern, dictatorial and intolerant in nature, ready to commit physical damage, relatively unconcerned about legality, and willing to identify with anti-U. S. ideologists and organizations. He stated that student unrest lacks any significant political support and could not long survive on any campus without some degree of faculty support. He stressed two pieces of advice to university administrators: first, if an issue is raised which the administration must oppose, act fast--within the first hour if possible; second, summary dismissal is the most powerful weapon the administrator has and he should use it promptly and decisively. Anything less, such as a period of suspension, will have little effect upon the individual except to make him something of a local hero and will be regarded as a sign of weakness.

MEMORANDUM FOR: Deputy Director for Support

SUBJECT : Office of Personnel Report - Week Ending 19 July 1968

25X1A

1. Cooperative Education Program: Mr. [REDACTED] accompanied by representatives from Technical Services Division and the Foreign Missile and Space Analysis Center, visited Georgia Tech last week to interview ten candidates for our Cooperative Education Program. We are interested in seven of these students.

2. Clerical Staffing: During the period from 1 January through 19 July 1968, we placed in the Clendestine Services 138 employees who entered the Agency through the Interim Assignment Section (Pool).

3. Closing down the Office of Special Operations Activity: Military orders assigning all Air Force personnel in the first increment to new assignments have been issued to all but one officer and three airmen. There is a daily check to ensure that these four persons receive appropriate assignments as soon as possible.

4. Sale of Bus Tokens to Federal Employees: As a result of the change in transit company fare collection operations, many Federal employees who rely on buses for their transportation to and from work are affected. If they do not have the exact bus fare, a portion of their money will be tied up in scrip until they are able to visit a redemption location. The need

for scrip can be reduced if the opportunity to purchase bus tokens is more readily available. Chairman Macy of the Civil Service Commission hopes that each Department and Agency will find it possible to have bus tokens available for sale to employees at credit unions, cafeterias, and other places.

We are now conducting a study designed to decide the best way to provide our employees with assistance in this matter.

5. Redskin Tickets: Ninety to ninety-five percent of persons indicating a desire to purchase tickets for this year's Redskin Games have paid for their tickets.
